Education

Dayanand Sagar College of Engineering — **2022–2026**
Bachelor of Engineering in Information Science – CGPA: 9.05 — *Bangalore, Karnataka*

Small Wonder Senior Secondary School — **2019–2021**
CBSE Higher Secondary – 90.2% — *Jabalpur, Madhya Pradesh*

Technical Skills

Programming: Python, Java, C
Data Analytics: SQL, MySQL, Pandas, NumPy, Matplotlib, Seaborn, Tableau, MS Excel
Machine Learning: Scikit-learn, Regression, Classification, Feature Engineering, Model Evaluation, NLP, OpenCV
Tools & Technologies: Flask, HTML, CSS, JavaScript, GitHub

Experience

TechSaksham – AICTE Internship — **Dec 2024 – Jan 2025**
AI Intern — *Remote*

- Developed a face recognition-based attendance system using Python and OpenCV, reducing manual tracking time from 5 minutes to nearly 1 minute.
- Integrated webcam-based face detection and attendance logging workflow for real-time computer vision automation.

AICTE Internship (SkillDzire) — **Nov 2024 – Dec 2024**
AI Intern — *Remote*

- Applied supervised machine learning concepts including regression and classification on real-world datasets using Python and scikit-learn.

Projects

Waterborne Disease Risk Prediction and Early Warning System | *Python, ML Integration, HTML, CSS, JavaScript* — **GitHub**

- Developed web workflows for symptom reporting and **waterborne disease risk assessment** using **Python** and **Flask**.
- Integrated frontend components with backend **APIs** to display real-time **prediction outcomes** and alert workflows.
- Contributed to an award-winning healthcare analytics platform involving **ML-based prediction** and **email alerts**.

AI-Powered Resume Analyzer and Job Recommender | *Python, BERT, Transformers, Scikit-learn* — **GitHub**

- Built an **NLP-based resume analyzer** using **BERT**, **Transformers**, and **Hugging Face**.
- Implemented **resume preprocessing** and **semantic matching** techniques for role recommendation.
- Generated automated resume feedback and validated outputs using **skill extraction** and **keyword analysis**.

Real-Time Face Recognition Attendance System | *Python, OpenCV, NumPy, Pandas* — **GitHub**

- Designed a real-time attendance automation system using **Python** and **OpenCV**.
- Improved attendance tracking efficiency by nearly **80%** under varied lighting conditions.
- Integrated **CSV logging** with **Pandas** for reporting and analysis.

Achievements

- **Selected for ACM India Summer School 2026** at IIT Guwahati on Natural Language Models.
- **Received Department Best Project Award** for Waterborne Disease Risk Prediction and Early Warning System.

Certifications

Data Mining | *NPTEL* — **2024**

Data Analysis with Python | *IBM SkillsBuild* — **2025**

Leadership & Extracurriculars

Litsoc Coordinator — 2022–2024
Coordinated literary activities, supported event organization, and contributed to Hindi Parishad initiatives.
